

The Federal IDR Gateway Transition

Starting November 13, parties can initiate and respond to disputes inside the IDR Gateway. The web forms outside the Gateway sunset after January 15, 2027. Use the window in between to get ready.

September 15, 2026

Parties gain Gateway access. Disputes are mapped to organizations by the contact information on file.

November 13, 2026

Initiation, Response, IDRE Selection and Offer forms go live in the Gateway.

January 15, 2027

Last day for web forms outside the Gateway. Only the Resubmission form remains.

Four Steps to Take Before January 15

1

Confirm your account

Your organization, or whoever submits on your behalf, has a Gateway account.

2

Test the new functionality

Try the Gateway while the web forms are still there as a fallback.

3

Update internal processes

Get the people who initiate and respond working in the Gateway early.

4

Resolve any issues

Be able to submit solely within the Gateway before the deadline.

Nothing changes in how you work with FHAS. Certified IDR entities continue their current processes.
